FOR IMMEDIATE RELEASE

The Timberline Series from Sitka Gear Gets A Facelift

Bozeman, MT - Sitka Gear, the industry leader in performance hunting gear, has reintroduced the Timberline Jacket and Pant. Newly developed bombproof textiles, taped WINDSTOPPER® fabrics, and an uncompromising level performance, earns the new Timberline Series a spot in every mountain hunter's arsenal.

The Timberline Jacket's performance fit features a boby-mapped Micro Grid Fleece insulation to keep your core warm, and the reinforced shoulders and sleeves will hold their own in the rugged terrain. This mid- to late-season jacket is Sitka's most versatile in the big game lineup. The Timberline Jacket is available in GORE™ OPTIFADE™ Concealment Open Country, sizes medium to 2XL and has an MSRP of \$349.

By reinforcing the seat, knees and hem on the Timberline Pant, Sitka was able to make it a more durable and pliable, meaning it can stand up to the rigors of any alpine hunt. This highly-technical 4-way stretch nylon pant is far more water repellent and quicker drying than before, translating to less weight when packing it away. The Timberline Pant is available in GORE™ OPTIFADE™ Concealment Open Country, Lead and Moss, and it has an MSRP of \$229. The Timberline Pant is available in the following waist sizes:

Camo: Even sizes from 30-44 inches, odd sizes from 31-37 inches

Camo Tall: Even sizes from 32-38 inches, odd sizes from 33-37 inches

Solid: 30-44 inches

Solid Tall: 32-38 inches
