## **Menace® II**

The Menace® II is an ideal bow for beginning archers that are still growing into the sport. With ultimate adjustability, the Menace® II sports a draw length range of 17-30 inches and 15-52 pounds of draw weight adjustment, all without the need of a bow press. Featuring a perimeter-weighted dual cam system, the Menace® II is smooth and balanced. With a physical weight of just 2.8 pounds, the Menace® II is perfect for shooters that may be smaller in stature. The Menace® II is American-made, comes with a Lifetime Warranty and has an MSRP starting at just \$299.

## Craze® II

Powered by the F.I.T. (Focused Inertia Technology) Cam System, the Craze® II offers best in class performance to archers of all ages, sizes and abilities. This hyper adjustable bow reaches draw lengths of 19-30 inches and 13-70 pounds of draw weight adjustment without the need of a bow press. The new ergonomic grip and enhanced riser design adds strength and stability while reducing overall mass weight. Offering ten different color finishes, the Craze® II is sure to appeal to all shooter styles and preferences. Proudly Made in America and featuring a Lifetime Warranty, the Craze® II is an exceptional value starting at \$319.

**HYPE™**

**HYPE™ DT**

## **Hype™ and Hype™ DT**

New for 2015, the Hype™ and Hype™ DT are two bow models that offer the power and accuracy traditionally found in higher priced bows. Featuring the F.I.T. (Focused Inertia Technology) Cam System, the Hype™ DT and Hype™ flexibly reach draw lengths of 19-30 inches and have over 55 pounds of draw weight adjustment without the need of a bow press. The ergonomic riser and grip design creates an accurate and stable shooting platform off the balanced 31" axle-to-axle length. Proudly made in America and featuring a Lifetime Warranty, the Hype™ DT (Damping Technology) comes standard with a Dead End String Stop and Mathews® Harmonic Stabilizer®. These attributes create a feel well beyond its \$399 price tag.
