FOR IMMEDIATE RELEASE

## **Summit Redefines Treestand Design With The Vine Series**

Birmingham, AL — Summit Treestands®, the industry leader in producing innovative and cutting-edge methods for hunting from an elevated position, redefines ladder stands with The Vine™ Single and Double Hunter—as well as The Vine climbing sticks and Back Country hang-on stand.

Featuring a new ladder section with a unique “engineered concealment” curved design, The Vine ladder design breaks up straight lines for maximum concealment from any game you pursue, making these ladder stands as invisible as a hang-on setup.

Available in one- and two- hunter configurations, the deluxe stand with a large, weather-resistant mesh seat and backrest comes fully equipped with a Full-Body Fall Arrest Harness system, built-in footrest, padded armrest and padded shooting rail for comfort and precision shooting. The Vine ladder stands offer ultimate safety and ultimate comfort ... with ultimate concealment.

### **The Vine Single Hunter Highlighted Features:**

Weight: 95 pounds  
Weight limit: 300 pounds  
Platform Size: 24 inches by 25.5 inches  
Seat: Contoured mesh folder with backrest  
Seat Size: 18 inches by 16 inches  
MAP: \$299.99

### **The Vine Double Hunter Highlighted Features:**

Weight: 120 pounds  
Weight limit: 2 X 250 pounds  
Platform Size: 47 inches x 32 inches  
Seat: Contoured mesh folder with backrest X 2  
Seat Size: (2) 18” inches by 16 inches  
MAP: \$379.99

In addition, Summit has diversified The Vine lineup to include the Back Country™ hang-on stand and The Vine Climbing Sticks for hunters in need of a highly concealed, highly packable treestand setup.

Featuring curved lines that mimic the forest canopy, the Back Country™ hang on stand sports a ratchet-strap and bracket system that allows for easy and secure attachment to

## FOR IMMEDIATE RELEASE

nearly any tree. In addition, a flip-up, mesh-style, no-shock seat makes this hang-on as quiet as it is comfortable for hunts lasting as long as it takes to fill your tag.

To match the Back Country's curved concealment lines, Summit also introduces the Vine climbing sticks. Keep your feet from slipping with the Vine's innovative step design, whose sign-post bends mimic tree vines to conceal the ladder while offering two-post stability during your ascent to success.

### **Back Country Stand Features:**

Weight: 22 pounds  
Weight limit: 300 pounds  
Platform size: 24 inches by 30 inches  
Seat: Contoured mesh folder  
Seat size: 18 inches by 16 inches  
MAP: \$169.99

### **The Vine Climbing Sticks Features:**

Weights: 22 pounds  
Weight Limit: 300 pounds  
Number of sections: 4  
Length per section: 23 feet  
MAP: \$129.99

### **About Summit Treestands**

Summit treestands are carefully engineered to be the most silent, secure, comfortable and concealed treestands on the market. All Summit stands are designed and engineered to meet or exceed standards set by the Treestand Manufacturers Association. At Summit, we don't just build `em, we use `em. We don't just build stands we think will work—we build stands we know will work.
