FOR IMMEDIATE RELEASE

Get High-End Performance In A Value Package With The Moultrie A-10 And A-10i Game Cams

Birmingham, AL – Moultrie Products®, LLC, the leader in game camera design and innovation, introduces two new high-quality game cameras for hunters and game managers who want high-end performance without the high-end price tag.

The all-new A-10™ and A-10i™ take everything Moultrie owners loved about the best-selling A-5 and make it better—and smaller! Featuring 10 MP image resolution and either iNVISIBLE (A-10i) or Long-Range (A-10) IR flash, these cameras are equipped to take high-quality images both day and night.

With a newly redesigned, super-small case, and a fast trigger speed of less than 1 second, the all-new A-10 and A-10i combine reliability and high-end performance with the kind of easy-to-use features that have made Moultrie the No. 1 selling brand of game cameras.

Highlighted A-10 And A-10i Features:

- 10 MP image resolution
- Less than 1-second trigger speed
- 50-foot flash range
- 16,000 images on 8 AA batteries
- A-10i: iNVISIBLE 940nm IR LED flash technology
- A-10: Long-Range 850nm IR LED flash technology
- VGA video
- Moultrie Mobile compatible

The MSRP is \$99.99/A-10i and \$79.99/A-10.

For more information about the A-10, A-10i or any other Moultrie products, contact Glenn Walker at glenn@providencemarketinggroup.net or visit www.moultriefeeders.com.
